Dear Keith,

I am interested in representing faculty on FACT.

I have been a faculty member at Scottsdale Community College since 1989. Since that time, I have had a variety of relevant experiences in the Maricopa system. I started my career as an adjunct, and I served in that role for 7 years. I then had two successive OYO's before I became residential faculty. I was also chair of the English department at SCC for 3 years. I believe that these experiences will give me some insight into the interests of the parties around the negotiating table.

In addition, I have had experience in faculty leadership. During my tenure at Scottsdale, I served a number of terms as a representative on Scottsdale's Senate, and I served two separate and distinct three year terms as Faculty Senate President. I think this experience will give me some insight into the diverse and complex interests of faculty at large.

Finally, I was lucky enough to go through IBN training that first summer when the Cornell team came to Maricopa (and I have endeavored to use this training in my professional interactions ever since). Since that has been a number of years ago, I am willing and eager to go through additional training.

Thank you for considering me.

Ramona Goth
